PROFILE

Highly motivated and detail-oriented Full Stack Web Developer with a strong academic foundation in Information Technology and Mathematical Innovations from the University of Delhi. Proficient in modern web technologies including React.js, Node.js, Express.js, and MongoDB, with hands-on experience in building scalable, responsive web applications.

Demonstrated ability to lead and deliver diverse technical projects — from intuitive note-taking tools and educational games to customizable no-code portfolio generators. Strong understanding of both frontend and backend development, with a focus on clean code, performance optimization, and user-centric design. Eager to contribute to innovative teams and continue growing in fast-paced development environments.

WORK EXPERIENCE

Game- Bad Math

JULY 2022 - NOV 2022

Freelancer

- Developed an interactive math learning game designed for school-aged children, integrating education with gameplay.
- Presented users with rapid-fire math problems under time constraints to build speed and accuracy.
- Implemented a scoring system with audio cues, limited lives, and visual feedback to maintain engagement and motivation.
- Innovatively combined game theory and education to enhance knowledge retention and learning enjoyment.

Website- Portfolio

Feb 2023 - April 2023

Freelancer

- Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
- Developed a web-based platform that allows users to create personalized, responsive portfolio websites without writing any code.
- Designed a simple and intuitive form-based interface for users to input their personal and professional details.
- Monitor brand consistency across marketing channels and materials.

Car-rental

July 2024 - Nov 2024

Freelancer

- Developed a fully responsive, single-page car rental application to provide users with a seamless and intuitive booking experience.
- Implemented dynamic browsing and filtering functionality based on vehicle type, price, and availability.
- Designed detailed car information pages with images, specifications, and booking options for enhanced user engagement.
- Utilized React Router for efficient client-side navigation and smooth transitions between views.
