PRAKASH KUMAR
WEB DEVELOPMENT

PROFILE

Highly motivated and detail-oriented Full Stack Web Developer with a strong academic foundation in Information Technology and Mathematical Innovations from the University of Delhi. Proficient in modern web technologies including React.js, Node.js, Express.js, and MongoDB, with hands-on experience in building scalable, responsive web applications.
Demonstrated ability to lead and deliver diverse technical projects — from intuitive note-taking tools and educational games to customizable no-code portfolio generators. Strong understanding of both frontend and backend development, with a focus on clean code, performance optimization, and user-centric design. Eager to contribute to innovative teams and continue growing in fast-paced development environments.

WORK EXPERIENCE

Mern-Project
Freelancer

- User Authentication – Secure login and registration using JWT and bcrypt.
- Admin Dashboard – View, update, and delete users, services, and contact messages.
- Contact Form – Users can send messages directly through a dynamic contact page.
- Authorization Middleware – Role-based route protection for admin and regular users.
- Responsive UI – Clean and interactive design built with React and Tailwind CSS.
- MongoDB Integration – Fully connected backend with data persistence and validation.

Website- Portfolio   Feb 2023 - April 2023
Freelancer

- Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
- Developed a web-based platform that allows users to create personalized, responsive portfolio websites without writing any code.
- Designed a simple and intuitive form-based interface for users to input their personal and professional details.
- Monitor brand consistency across marketing channels and materials.

Car-rental   July 2024 - Nov 2024
Freelancer

- Developed a fully responsive, single-page car rental application to provide users with a seamless and intuitive booking experience.
- Implemented dynamic browsing and filtering functionality based on vehicle type, price, and availability.
- Designed detailed car information pages with images, specifications, and booking options for enhanced user engagement.
- Utilized React Router for efficient client-side navigation and smooth transitions between views.
